Dear Sir/Madam

I am Professional and diligent computer scientist with ability to oversee effective system operations of various activities and ensure accuracy and clarity of system operations both in software and hardware aspect. With years of study, I have developed interest programming in JavaScript and ability to communicate technical information clearly and effectively to both technical and non-technical colleagues and other stakeholders. Have amassed and problem-solving skills, capacity to create backend applications using NodeJS and frontend applications using ReactJS, in addition am also developed skills in communication systems and data communication. I like challenges and exploring new ideas in technology and other field.

Core Skills

- ➢ Web design with Programming In JavaScript (ReactJs for frontend and NodeJS for backend)
- ➢ Competent with Databases (MongoDB, PostgreSQL, and MySQL)
- ➢ Computer Networks and Data Communication
- ➢ Version control and DevOps with Gitlab CI/CD
- ➢ Communication System and Data Communication
- ➢ Teamwork

Education and Qualification

- ➢ Maseno University - 2018 to Date: Bachelor's degree in computer technology
- ➢ Usenge High School - 2014 to 2017: Kenya Certificate of Secondary Education
- ➢ Coursera Course (Server-side Development with NodeJS, Express and MongoDB)
- ➢ CISCO Academy (IoT and Enterprise Networking, Security and Automation)
- ➢ Udemy ReactJS Course

Working Experience

September 2021 – January 2022   AppKings Solutions

Intern

Outline

During may time in Appkings I got to learn more about integration of system with third parties' institution like bank and Microsoft Dynamics (ERP and CRM).

Key responsibility

- ➢ Assisting in development process and problem identification and solution process.
- ➢ Assisting in installation of network equipment's.

Key Achievements

- ➢ Improved my knowledge on software development.
- ➢ Being introduced to Microsoft Dynamic (ERP and CRM).

Accomplished Projects

- ➢ Home Air Quality Monitoring System in a House.
- ➢ Student Attendance Tracking and Authentication
- ➢ Password Based Door Lock System
- ➢ Other project e.g: https://odhiambo-g.herokuapp.com/ student record center
